

## Blue Blue World

Jandek

It's gone past you, baby  
You're not even on my mind  
It's these blues I got to deal with  
So heavy all the time  
Maybe I had them before you  
I can't really say  
It's been so long baby  
I don't know where I've got it  
The fact of it is  
Now it's a blue blue world  
I don't see no other color  
Not right here today  
It's a blue blue world  
I can't get my mind nowhere else  
I'll wallow in this feeling  
It's no use to try to fight  
I know that they just come back  
It's all I can do  
It's gone past you, baby  
It's these blues I got to deal with  
So heavy all the time
