

# Come Through With A Smile

Jandek

Fear Jesus Christ  
Ah, don't fear what you have to do  
He didn't fear what he had to do  
I'll give it back tomorrow  
I'll give it back, all your sorrow  
For what it's worth to you  
Come on through with a smile  
Come on though and dance awhile  
I want the sky with me  
Oh, I wanna feel flat color  
And the light in the morn'

One more time with one more dime  
Just one more smile, just one more child  
Just one more for me  
Just come out to the land of sand and blue-green birds  
And we'll fly all the time  
All the night  
We've got style  
We've got our own mind  
We've got our own heart  
We've got our own time  
And it's not the same as for you  
It's not the same as for you  
Changes are comin', changes are comin'  
Changes come, changes are comin'  
You'll never be inside  
You'll never be the one  
Like streets in brown instead of blue  
Instead of blue  
Forest turns green, forest turns blue  
Forest turns black, and I'm with you  
Forest turns brown  
Comes runnin', comes rainin', comes lightnin'  
Comes thunderin' (3x)  
A flash of blue  
Never comin' back (7x)  
I'm goin'
