

## Desert Voice

Jandek

Well if the moon don't getcha tonight  
If the graveyard's still in sight  
If you're moving a little too fast  
Just slow down, put a stop on your nerves  
Use a blotter for your energy  
And you'll see that it's been 110 degrees  
And the sunspots you're knowing  
Carrying the dreams away  
You can take a louder voice  
In the desert  
Is crying out your name  
And you ain't getting younger  
And you ain't getting older  
Your shoes just freeze the same  
And it looks like  
You just like that name  
You just like that name
