

Faye

Jandek

Don't you know that I love you
Stop making me sad
You're the meanest little woman
That I ever had
Please say that you love me
Stop making me blue
You're the cutest little woman
That I ever knew
Well, by golly, she loves me
She's making me smile
A little wine will do her
All the live long while
I'm taking it to you
In a foreign way
You bring me the sunshine
Oh, my darlin' Faye
