

I Know You Well

Jandek

Can't come around the way you do
Say that you're somebody new
I knew you from before
That's the way you are once more
Can't come 'round here
Say you're somebody new
'Cause I know you
I know you well
Well, well, well
I know you well
And it's been tough
You've been around
I know you well
Time won't tell
What you've been doing
Time won't tell
I know you well
Well
I know you well
