

## I See The Open Door

Jandek

I want to go back  
To that lost place  
Waiting, waiting, waiting  
For that lost place  
I see the open door  
Just step in  
Close it back  
But wait, wait, wait  
Resolve the present  
How'd it get like this  
But it did  
Complexity, I know your name  
Dignified and congratulations  
Here you are and there you'll be  
Stop, turn around  
The other side is on the ground  
You don't own anything  
Guess I'll walk to the mailbox  
I can't ever be there  
It all comes true in those dreams  
When I open that door  
There'll never be a going back
