

I See The Open Door

Jandek

I want to go back
To that lost place
Waiting, waiting, waiting
For that lost place
I see the open door
Just step in
Close it back
But wait, wait, wait
Resolve the present
How'd it get like this
But it did
Complexity, I know your name
Dignified and congratulations
Here you are and there you'll be
Stop, turn around
The other side is on the ground
You don't own anything
Guess I'll walk to the mailbox
I can't ever be there
It all comes true in those dreams
When I open that door
There'll never be a going back
