I Stepped Out Of It

Jandek

```
I stopped the world
And I stepped out of it
I cut a clean path
I stepped out of it
I've gone and stepped out of everything
Everyone in this room
Saw money coming to them
You can get your money
And sell a little differently
The more things you buy
The higher the cost of them
And why am I doing this?
Because you let me
There's not a heart
That's bigger in here
There is health in every pure thought
You got me thinking about too
```
