

It's Only You

Jandek

It's only you, my darling
You're the one with me
The distractions out the window
Are only a curiosity
I've got a spell on you
I tried the hardest I could
There's no end to this moment
You're the everlasting one
It's only you, my darling
You're the one with me
The distractions out the window
Are only a curiosity
I've got a spell on you
I tried the hardest I could
There's no end to this moment
You're the everlasting one
There's no end to this moment
You're the everlasting one
There's no end to this moment
You're the everlasting one
