

Love, Love

Jandek

Love love is the only way
Love love is the only way
The only way
Love everybody, love yourself
Make yourself the best person you can
To give to everybody some way or another
Love love is the only way
Love love is the only way
Make the most of your talents
Don't bury them in the ground
Decide for yourself just what is God
And love love is the only way
Love love is the only way
