

New Town

Jandek

I thought I would send you
The last song I wrote
I thought I'd recommend you
With six words that I wrote
The last time I saw you
Was I don't know when
That's when I knew you
In all places I'd been
Just look around
You're living in the new town
All the faces seem like they're underground
Hey listen can you hear me
Just because you're near me
Let's pretend there's a good chance
Yes and then we'll try romance
It's not the same as it was before
But that don't change it anymore
