

## Share My Life

Jandek

I want somebody to share my life  
I'll never leave you alone  
I want to take somebody into my life  
I'm searching for you  
I know that you're there  
I'm done with before  
I don't see the past  
Let's make the clock disappear  
There's only one thing to say  
You're missing somebody  
You're missing me  
There's nothing to weigh you down  
I don't have a past  
Let's make the clock disappear  
There's only one thing to see  
You're missing somebody  
You're missing me  
There's nothing to weigh you down  
I don't have a past  
Let's make the jump into eternity  
You'll find you're future  
And we'll forget about that
