

Share My Life

Jandek

I want somebody to share my life
I'll never leave you alone
I want to take somebody into my life
I'm searching for you
I know that you're there
I'm done with before
I don't see the past
Let's make the clock disappear
There's only one thing to say
You're missing somebody
You're missing me
There's nothing to weigh you down
I don't have a past
Let's make the clock disappear
There's only one thing to see
You're missing somebody
You're missing me
There's nothing to weigh you down
I don't have a past
Let's make the jump into eternity
You'll find you're future
And we'll forget about that
