

Talk That Talk

Jandek

When you talk that talk: ha!
When you say we're through
I know all I gotta do
Is not listen to you
In another day
You'll be loving my way
So when you talk that talk
I know all that I gotta do
Is not listen to you
And in another day
You'll be loving my way
Bringing all that sweet love yeah
All that sweet love
Cause you're my only lover
And I'm your only man.
Darling, I told you a hundred
I give you what you want
And knowing you
Who else is gonna get all that?
Surrender to other thoughts
I know all I gotta do
Is not listen to you
