Bessie

Jane Siberry

I'm going to take a rope and put it over her shoulders and head for the river and practice on boulders and when she's real good I'm going to build a big ramp and me and that bovine gonna vacate this camp Fly now across the hills everyone's watching gonna give them a thrill So pound up that ramp your hooves sound like thunder I'm Zeus - you're Pegasus we're a six-legged wonder it's our key to success we'll be famous world over I'll make lots of money and you'll have sweet clover Fly now across the sky fetlocks a-flappin' it's just you and I And I won't tell the airforce about my schemes I know they'd abuse you for their flying machines and the farmers will curse me when their cows take off from the fields no meat for their markets no milk for their meals Fly now across the hills everyone's watching gonna give them a thrill So don't let me down oh, bovine be risen come on, sweet Bessie be just like my vision don't back away Bessie if you pull I'll push and we'll weave a nice sine wave up over the bush Fly now across the hills fetlocks a-flappin' the earth's standing still fly now up in the sky Bessie sweet Bessie it's just you and I
