

We Should Be There By Morning

Jane Siberry

Look at me, babe, look at me
Am I special or not?
I love you do you love me?
Am I special or not?

I'm combing your words for compliments
Am I special or not?
I love you do you love me?
Am I special or not?

We should be there by morning
We've done so well so far
We should be there by morning
We've done so well so far
Won't we?

I woke one night in Wales
And this cow was bellowing across the hills
I didn't know you then
But I felt the same loss

We should be there by morning
We've done so well so far
We should be there by morning
We've done so well so far
Don't we?

I don't want the hurt to leave
Just through time or a new man's faith
I want the hurt to leave
Because my heart's a better place

So I'm gonna stand here in this empty room
And wait for it to come
I'm never going to leave this room
Until we all are one

We should be there by morning
We've done so well so far
We should be there by morning
We've done so well so far

We love don't we?
We love don't we?
We love don't we?
