

You

Janelle Monáe

I need to talk to you
Lets make it last (oh lets make it last)
Embrace what we talked about
Dont wanna look back
And see what Ive been without
Now I've made up my mind
To make this work with you
Cause you and no one else, feels me like you do
See my father knew best when he said a man should fight for me
And baby Im gonna do whatever feels right for me
You hey you you you
you you you you
Darling I know its hard
with this long distance and all
But I'm tired of writing you with this pen

Why can't we talk on the phone again?
Why cant we go back to how things used to be
You would look in my eyes and tell me that you love me
see my Mama knew best when she said that you were right for me
And I'm gonna do whatever feels right for me
darling I'll fight for you
you
I'll fight for you anyou and only you you

Forget climbing mountains, I'm flying home to you
Girl there just aint no way
There just aint no way, I can live without you
Cause its all about you you you
