

# When We Were Young

Janet Devlin

The monsters that were once under my bed  
Now you you can only find them in my head  
And all our fears of make-believe were never there  
When we were young Oh when we were young

Seems like with every step we move away  
From the feelings we'll forget called yesterday  
We never thought of tomorrow but still it came  
When we were young oh when we were young

Don't wanna be running, don't wanna be hiding  
Don't wanna think about the morning  
Wish I could be higher than I once was  
Just wanna be falling forget about reasons  
'cause somebody else picks up the pieces  
Don't wan a care about all the things I've done  
Like when we were young when we were young

Never felt so old in my whole life  
Still so young but I'm longing for the child inside  
Wish I could turn back time  
To when we were young oh when we were young

Don't wanna be running, don't wanna be hiding  
Don't wanna think about the morning  
Wish I could be higher than I once was  
Just wanna be falling forget about reasons  
'cause somebody else picks up the pieces  
Don't wan a care about all the things I've done  
Like when we were young

Don't wanna be running, don't wanna be hiding  
Don't wanna think about the morning  
Wish I could be higher than I once was  
Just wanna be falling forget about reasons  
'cause somebody else picks up the pieces  
Don't wan a care about all the things I've done  
Like when we were young (3x)
