The Great Forever

Janet Jackson

Not too pleased with what you're diggin' I'm just busy livin' my life Sources say but where ya gettin' it Don't create the truth you like

It might sound strange to you But what you think it don't mean nothing at all Doesn't change who I am Doesn't change who I love

Living my life Whe way that I hope Is leading to me The great forever Forever I will choose Watch what I'm doin' Watch where I'm goin' Tryin' to get to The great forever Forever is the truth

If you wrong would you admit it And take the heat up under the lights Use your expert critism Then maybe you could get a life Don't like seeing people happy Is it jealousy or personal Cause I don't see why loving someone Or what I do seem so radibal to you

Still it might sound strange to you But what you think it don't mean nothing at all Doesn't change who I am Doesn't change who I love

Living my life The way that I hope Is leading to me The great forever Forever I will choose Watch what I'm doin' (believe) Watch where I'm doin' Tryin' to get to The great forever (The great forever is true) Forever is the truth (Don't be mind closeded yeah)

Once you know why you're here It becomes crystal clear To love someone is devine That empty hole in your heart It will tear you apart Because hate will only divide (Bless you)

Hey, hey, hey, hey Nah, nah, nah, nah, nah, nah Hey Nah, nah It's sad when you take such a beautiful thing Blow it up and call it the news It's not ok still i hope that one day You'll find the great forever too (L. U. T. F. A.)

Living my life The way that I hope Is leading to me The great forever Forever I will choose Watch what I'm doin' Watch where I'm goin' Tryin' to get to The great forever Forever is the truth
