Where Are You Now

Janet Jackson

Love My love I regret the day you went away I was too young To understand my love But now I realize my mistakes [CHORUS:] Where Where are you now Now that I'm ready to Ready to love you the way you loved me then Where are you now Do you still think of me Or does your heart belong to someone else's Love Oh my love Wonder sometimes were you just a dream I sit in the dark Wondering if our paths Will ever cross again Oh lord I need to know I sit and wonder [CHORUS] If I close my eyes And make a wish When they open will you be right here with me Where are you now Now that I'm ready to Ready to love you the way you loved me then Could it be That two people Were meant to be In my dreams That's what I feel Or could it be that I'll never see you again My love that was so true Still I'll sit here waiting all alone By the phone for you Now I understand (now I understand) When you said I love you I sit and wonder [CHORUS (2x)]
