

Always Have Always Will

Janie Fricke

It seems funny I remember your number
After all this time
And I know that it's late
And I hope that I'm not out o' line

But for some crazy reason
I bin thinkin' 'bout you all day
And every three hours now
I bin thinkin' of somethin' to say I

love you like a fool
Always have, always will
But you know that it's just my point of view
But I love you still
Always have, always will
Always have, always will love you

Well now, are you sleepin' any better
Now that I'm gone
And I wanna know who's holdin' you tight
Or are you just holdin' on

You're awfully quiet, I guess you're tired
So I'll hang up the phone
But you know that this ol' heart
Can't leave well enough alone

I love you like a fool
Always have, always will
But you know, yes you know that it's just my point of view
But I, I love you still
Always have, always will
Always have, always will love you
