## The First Word In Memory Is Me

Janie Fricke

I can see you don't know What a memory can do You're getting ready to go Like good-bye's up to you

I can tell by the way You're not falling apart You're listening to somebody new Not your heart

And when she's laying beside you Like I used to do Her lips will be mine, dear When she's kissing you

You'll be looking at her
But it's my face you'll see
The first word in memory is me

She'll never touch you, darling The way that I do It won't be her fault That's just how it is

When she's loving you
The way I loved you first
Baby, remember and know how it hurts
That's when you're gonna find out
What a memory can do
And that's when you're gonna wish
She was me loving you

But I'm here to tell you You'll never be free The first word in memory is me The first word in memory is me
