

# You Don't Know Love

Janie Fricke

You don't know the meaning of uncontrolled desire  
You were always hanging just above the fire  
Now and then you come close enough to just stay warm  
And you think that you win cause you never give in  
Because you've never been burned  
Ah, but you're gonna learn

CHORUS:

That you don't know love  
Till it's chilled you to the bone  
Turned you inside out  
Left you all alone  
You don't know love  
Till you've watched it die and then  
You have to try again  
You don't know love.

Like a child you wander out into the storm  
You defy the thunder, but the lightning keeps you warm  
The innocence you show is something I'd like to know  
And I'm feeling that I'm finally crossing the line  
But I won't be alone -  
Yes, I've known all along

Repeat Chorus

No you don't know love.
