

## Every Love

Janis Ian

Every love is different  
Every love's the same  
Every love has memories  
Every love has pain

I knew love at thirty  
And I knew love at nine  
But the love I know right now  
Is the sweetest love I'll ever find

Every town's familiar  
Every town is strange  
When you're feeling lonely  
Every town's the same

I have dreamed of Paris  
And I have dreamed of Rome  
But the dream we're in right now  
Is the sweetest dream I've ever known

Touch me in the silent  
Shelter of the night  
Hide me safely wrapped in your arms  
Till morning light

Every love remembers  
Every love forgets  
I've had my share of sorrows  
But I have no regrets

Love is made of silver  
Love is made of gold  
But the love that we have made  
Is the sweetest love I'll know
