

Friends Again

Janis Ian

Do me a favor kid
Tell me what it was I did
to make you want to live without me
You're not being fair
Let down your hair
Make it clear why you doubt me
I don't really know what you think I done or why
but all you got to do is tell me
I'll apologize
And I don't want anything much
if you'll just
be my friend again
Aw, give me a chance, babe
Remember all the things you used to say
and now the words are gone
I want to talk to you
I want to walk with you
Find out the truth to what you think I done
I wouldn't mind leaving or saying goodbye
if you could just tell me the reason why
And I don't want anything much
if you'd just
be my friend again
Please open the door
I can't say any more
I'm down on the floor on my bending knees
Answer my ring
and tell me just one thing
What was it I done to make you dislike me
I don't want nothing from you, babe
excepting maybe
the chance to say
that I don't want anything much
if you'll just
be my friend again
Be my friend again
Friends again
