

Fighting for the World

Jann Arden

Christmas all of us
Waiting to hear footsteps
You're off at war and you're fighting for
The freedom of the world

New Year's evening
Candles burning they're nearly gone
We sit with our folded hands
While you're fighting for the world
While you're fighting for the world

Easter morning
No sign of the one we love
We sit at the table
While you're fighting for the world
While you're fighting for the world
While you're fighting for the world
While you're fighting for the world

Christmas all of us
