

## Leave Me Now

Jann Arden

Leave me now, don't hang around  
Just close the door  
and leave the key under the plant outside  
The one you bought me years ago  
look how it's grown

Go away, you cannot stay here  
Take your heart off of your sleeve  
and let me catch my breath  
I hope you haven't left a thing

It's hard enough to be here without your love  
It's hard enough

Move along, you don't belong here  
Wipe yourself off of my floor  
and let me get some sleep  
I cannot keep you in my heart

It's hard enough to be here without your  
to be here without your  
to be here without your love

It's hard enough  
It's hard enough

Leave me now, don't hang around  
Leave me now, don't hang around
