

Mend

Jann Arden

Why are you weeping
Yes I still love you
We fight and fall down
And mend

Here drink some water
Soon you'll feel better
I know we have all my love

Whatever it was is lost
Whatever you said forgotten

Why don't we lay down
Talk in the morning
Don't cry just close your eyes
And mend

Whatever it was is lost
Whatever you said forgotten

Why are you weeping
Yes I still love you
We fight and fall down
And fall down
And mend
