

Never Mind

Jann Arden

Never mind, what you think you know about me
Never mind, what you might have seen on the TV
You can't believe every single word you're gonna read
What I am is too far in for you to see

Never mind, who said that I was a bit far gone
Never mind, when they tell you, sex is all I want
You can't believe that I'm every word that I write down
What I am is too far in and can't be found

Never mind, what they're gonna say is probably wrong
Never mind, ain't about the singer it's the song
You can't believe how a person looks is who they are
What I am is too far in and can't be found

What I am is too far in and can't be found
What I am is too far in and can't be found
What I am is too far in and can't be found
