

Taste of This

Jann Arden

I know you're sleeping
I hope you're dreaming all about us
I can remember your body moving
Through the shadows

I've never been so in love
I thank God above that I found you darling
And I know it's a miracle
I can see into everything we are

I can't remember, my past is over
I've found happiness
I have surrendered all of my yesterdays
For just one taste of this

I hear your heartbeat
It's in my memory just like sugar
Kiss me like candy
As warm as summer, sweet as kindness

I have never been so far gone
I believe in God, I believe in you
And I know when I close my eyes
I will see the light come on shinin' through

I can't remember, my past is over
I've found happiness
I have surrendered all of my yesterdays
For just one taste of this

I can sleep at last in your arms
All I want is for you to love me back

I can't remember, my past is over
I've found happiness
I have surrendered all of my yesterdays
For just one taste of this

I can't remember, my past is over
I've found happiness
I have surrendered all of my yesterdays
For just one taste of this
