

## Thing for You

Jann Arden

I feel like you know me  
I know well I know I know you do  
I've got this thing going on, inside my head  
I've got this thing for you

I like your face, I like your body,  
I like your feet, I like your nose,  
I like your chest beneath the covers  
I like your heart, I like your soul  
I like your life inside me pounding, like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony.  
I like the way you walk beside me, like a paper in the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby I do.

I feel like you know me well  
I've tried to let you see me for yourself  
I feel like I'm, I'm out of my head  
I've got this thing for you

I like your face, I like your body,  
I like your feet, I like your nose,  
I like your chest beneath the covers  
I like your heart, I like your soul  
I like your life inside me pounding, like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony.  
I like the way you walk beside me, like a paper in the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby I do.

I like your face, I like your body,  
I like your feet, I like your nose,  
I like your chest beneath the covers  
I like your heart, I like your soul  
I like your life inside me pounding, like a heart inside a dream  
Inside a dreamer that's been dreaming of a perfect symphony.  
I like the way you walk beside me, like a paper in the wind  
The way you swing your arms so gladly  
Where you end and I begin, I like everything  
About you, baby I do.
