

# Where No One Knows Me

Jann Arden

Got my suitcase, got my dog  
I'm packing up my life so far  
Got my pictures, got some cash  
I'm getting out of here at last

Got my hands on the wheel, got my foot on the pedal  
Gonna drive 'til I drop, 'til the tyres turn to metal  
Gonna sleep when I'm dead, gonna laugh like the devil  
Gonna find some place where no one knows me

Gonna stop when the last drop of gas turns to vapor  
Gonna ride 'til I can't even seem to remember  
Who I was when I left and it don't even matter  
Gonna find some place where no one knows me

Feel the sunburn on my skin  
I feel the wind whip through my grin  
Took the rear-view mirror down  
I wrapped it in my wedding gown

Got my hands on the wheel, got my foot on the pedal  
Gonna drive 'til I drop, 'til the tires turn to metal  
Gonna sleep when I'm dead, gonna laugh like the devil  
Gonna find some place where no one knows me

Gonna stop when the last drop of gas turns to vapor  
Gonna ride 'til I can't even seem to remember  
Who I was when I left and it don't even matter  
Gonna find some place where no one knows me

Gonna find some place where no one knows me

Got my hands on the wheel, got my foot on the pedal  
Gonna drive 'til I drop, 'til the tyres turn to metal  
Gonna sleep when I'm dead, gonna laugh like the devil  
Gonna find some place where no one knows me

Gonna stop when the last drop of gas turns to vapor  
Gonna ride 'til I can't even seem to remember  
Who I was when I left and it don't even matter  
Gonna find some place where no one knows me

Got my hands on the wheel  
Got my hands on the wheel  
Got my hands on the wheel  
Gonna find some place where no one knows me  
No one knows me, no one knows me  
Gonna find some place where no one knows me
