

You Were Never Broken

Jann Arden

Leave them all the hand
Everyone did hurt you?
Leave them all the road
Let them run over
No one can stop you, you were never broken
You were only open for a friend

Keep your body well, drink a lots of water
Always look ahead, don't you wait for nothing
No body can stop you, you were never broken
You were only open for a friend

One day, one day is for you to fade
Would you on be defended
Your stand on that moutaigne
you look down at the valey
Every step you;ve take
No body can stop you, you were never broke
You were always hold in hand a friend
