

Always Rains

Janus

I'm watching the days cleave
I'm fearing the used crawl
I'm wearing the face of
No one that I know
And no one that I become
And no one that I can love
I'm hearing the wind fall
I'm chasing the storm that comes

[Chorus]
You're sick of the sun burns
You're sick of the sun that drains
Well it always rains down
It always rains
And you won't try
I'm always moving something
That always rains down
It always rains down

I'm chewing the days off
I'm peeling the hours off
Spending the time on
Sparing us both the fall
I'm sparing us both the crawling
I'm saving us all you've saved up
Hearing the wind call
I'm chasing the storm that comes

[Chorus]

[Chorus]

Too tired to run
Too angry with
Bearing it open
Believing the sign
Always rains down
It always rains
And you won't try
I'm always moving something, I'm always moving something
Always rains down
Always rains down
