

# Numb

Janus

I saw her blade  
It cut me alone  
And I went numb  
Right through my bones  
And I'm still awake  
And I see cold out and hang  
Then rain  
I'm staring out a million eyes  
And watch  
As I freeze

[Chorus #1]  
I'm awake  
Still alive  
I'm barely breathing now  
And I realize  
All I've ever known  
All I've ever tried  
Will fade

You can't even move  
You can't even breath  
And all of your time  
Well it feels like breeze

And I'm still awake  
And I see cold out and hang  
Then rain  
I'm staring out a million eyes  
And watch  
As I freeze

[Chorus #1]

[Chorus #2]  
If I could run  
Say goodbye  
Still numb and feeling like  
All I've ever known  
All I've ever tried  
Will fade

And I'm still alive

[Chorus #2]

[Chorus #1]

[Chorus #2]

And I'm still alive
