

Say It

Janus

No one can harm you worse than words
Said inside of your own mind

I can't believe, I can't believe
I let myself believe this lie

Say goodbye, say goodnight
We wish you well, make sure you write
Say goodbye, say goodnight
We wish you well, make sure you write

With every lie, an ocean size wave will swell
It echoes every step you take
With every lie, with every face

Make sure you mean it
when you say these words and sell it hard
Make sure you believe it
when you promise me, promise me

Say goodbye, say goodnight
We wish you well, make sure you write
Say goodbye, say goodnight
We wish you well, make sure you write

Make sure you mean it
When you say
Make sure you believe it
When you...

Say goodbye, say goodnight
We wish you well, make sure you write
Say goodbye, say goodnight
We wish you well, make sure you write

Make sure you mean it
Say goodbye
Make sure you believe it
Say goodbye

We wish you well, make sure you write
