Fall In Love With Me

A summerhouse in Texas Searching for Siberia Pioneering underground We looked a lot like you Now work is done, the table set Deliver insufficient sound

Oh my, fall in love with me Oh my, fall in love with me

Cross military lines Nobody would believe us now The weather working with us We looked a lot like you Now every boy's a refugee Living for the moment

Through the shrieking wails Trans-European overseas Silently leaving Amsterdam We looked a lot like you Shy away from standard life Each bitter moment lingers on
