

Lovers On Main Street

Japan

Begging, pleading lose your love to me
It's all that I need
No fool can ease my heart, my love
The way that you do
I will follow you
Lovers on main street

Well, don't forget me when you're laughing
Disbelieving in all that I said
When you're lying back to back
With your problems
Satisfaction comes slow
You will never know
Lovers on main street

But if you need somebody to love
Think of me
But if your time has come
Lovers on main street

Argumentative, self-conceited
You console all the love I possess
But you'll conceal your own misfortune
Leave heartaches behind
You can always find
Lovers on main street
