

Suburban Love

Japan

Below the cities hustle begins
Expression lost in suburban winds
Don't waste my time the way you do it
My heart on main street
My love for you

So take your turn on the love carrousel
Your time will come and I wish you well
'Cause, you've got love
Got a whole lot more
Now you got what I've been searching for, my baby

Earth wind, earth wind and fire
Cannot take me, take me much higher
Earth wind, earth wind and fire
Cannot push me, push me much higher

No slow down, a love can't wait
When time comes for you
You can't be late
We're burning love the whole night through
What I do baby, I do for you
It's coming though so
Let the wind come rushing in
I feel that soul sensation begin
'Cause you've got love
Got a whole lot more
Now you've got what I've been searching for
Come on baby

Earth wind, earth wind and fire
Cannot take me, take me much higher
Earth wind, earth wind and fire
Cannot push me, push me much higher
