

# I Will Not Lose

Jarren Benton

It's my time, and I ain't losin'  
Feet glued to the earth and I ain't movin'  
Fucking monster  
The game's mutant  
Pray for death to rappers making lame music  
I'm sitting in flames  
I'm fixing to rain  
I'm sick in the brain  
I'm sick of this pain  
I'm slittin my vein  
This prick is deranged  
I'm stickin my lane, just grippin that grain  
I feel like I'm losing a step in the game [?]  
[?]  
Feel like I am to blame  
Feeling so high as a plane  
Pimping, I'm out of your range  
Target inside of your aim  
They're saying that Jarren is strange  
This energy can't be contained  
Something I cannot explain  
Maybe I'm just insane  
Haters... to my name  
Rappers, I'm leaving them slain  
Beat em and kill em and pick up their flesh right up out of my  
veins  
Feel like I've paid up my dues  
Thinking I fit in my shoes  
Waiting to kill [?]  
I will not lose
