

# Nothing Remains

Jarren Benton

[Hook:]

Now we're here  
Standing in your tears  
Nothing remains  
Just fire and flames  
Fire and flames  
Fire and flames

[Verse 1:]

Yeah!  
Can you stitch back a ripped heart  
Or when it's gone is it torn apart?  
I feel allured by the dark like Damian  
Crashed on another planet just the lonely alien.  
Trying to get these motherfucking doubts out my cranium  
I know I'm a make it but this pain's got me caving in.  
These industry niggas I've developed such a hate for them  
Swear I want to kill them but my momma told me pray for them  
Waiting on the day when me and my niggas rocking stadiums  
But we've grown apart now I cannot relate to them, nah...  
Uh! Now who the fuck says life's fair  
Niggas turn their backs on you when you need them right there  
Grandmama told me stress'll give me white hair  
I can feel something evil lurking in the night's air  
My dreams seem distant but they right there  
Pray my kids don't grow to inherit my nightmares

[Hook:]

Now we're here  
Standing in your tears  
Nothing remains  
Just fire and flames  
Fire and flames  
Fire and flames

[Verse 2:]

Yeah!  
Blow an O with that L.A. weed  
Feeling stressed cause' I fucked up with L.A. Reid  
Plus I got to share the bad news with my scene  
Niggas looking at me like I won't succeed, damn!  
And it was all good just a week ago  
Hope these pussy ass niggas decompose  
Turn the stereo up and let the speakers blow  
Trying to block the bullshit out blowing reefer smoke  
I need to find a shrink to confide to  
Why worry knowing God walk beside you  
God told niggas I'll advise you  
Don't sleep on Jarren, he's creeping right beside you  
So how you balance hip-hop and family  
I swear to God I think my wife don't understand me  
Her music used to be therapeutic  
Now a nigga going crazy about to lose it.

[Hook:]

Now we're here  
Standing in your tears

Nothing remains  
Just fire and flames  
Fire and flames  
Fire and flames

[Instrumental]
