

# Out Of My Hands

Jars of Clay

I wasted a rescue  
Abandoned the mission  
I've failed by my own hand  
And watched it all go wrong  
You said You could save me  
That I couldn't save myself  
You said that You loved me  
No matter what I've done

When the light is gone  
And life is just a dare we take  
Still the fight goes on  
To give my heart away

And it's out of my hands  
It was from the start  
In light of what You've done for me  
In light of what You've done for me  
You lifted my head  
Set me apart  
In light of what You've done for me  
This is what You've done for me  
It's out of my hands

You grow where the light is  
Like trees in the highlands  
We're bent by our own plans  
To keep us in the dark  
And I act like an orphan  
Forget that You found me  
But You came like a whisper  
And saved me with a spark

When the light is gone  
And life is just a dare we take  
Still the fight goes on and on  
To give my heart away

And it's out of my hands  
It was from the start  
In light of what You've done for me  
In light of what You've done for me  
You lifted my head  
Set me apart  
In light of what You've done for me  
This is what You've done for me  
It's out of my hands  
It's out of my hands

There's nothing in the world that I can offer  
Nothing in the world that I can stand apart  
Apart from You  
Apart from You  
There's nothing in my life  
Nothing in my life that You Haven't given to me

It's out of my hands

It was from the start  
In light of what You've done  
In light of what You've done  
You lifted my head  
Set me apart  
In light of what You've done  
In light of what You've done for me  
It's out of my hands  
It was from the start  
In light of what You've done for me  
In light of what You've done for me  
You lifted my head  
Set me apart  
In light of what You've done for me  
This is what You've done for me

It's out of my hands  
It's out of my hands  
Everything I have, Lord  
Everything I have  
It's out of my hands  
It's out of my hands

Oh, It's out of my hands
