

# Do You Wish It Was Me

Jason Aldean

When the sun slowly chases the moon from the sky  
And touches your face as you open your eyes  
What are you thinking? Do you like what you see?  
Is it all that you dreamed of or do you wish it was me?

Is the life that you've chosen free from regret  
Or it's what might've been just too hard to forget?  
Has the glitter all faded? Do you get what you need?  
Are you satisfied, baby, or do you wish it was me?

I know that you did what you thought you should do  
It was safe and secure, so completely thought through  
But you sacrificed passion and abandoned your dreams  
Baby, was it all worth it or do you wish it was me?

'Cause each kissing closer to the first or the last  
Is the fire still raging or has it burned down to ash?  
Do the memories haunt you? Do they beg and they plead?  
Are you satisfied, baby, or do you wish it was me?

Is the life that you've chosen free from regret  
Or it's what might've been just too hard to forget?  
Has the glitter all faded? Do you get what you need?  
Are you satisfied, baby, or do you wish it was me?

Are you satisfied, baby, mmm, yeah  
Or do you wish it was me  
Do you wish it was me?

Oh, do you wish it was me?  
Do you wish it was me, yeah?  
Do you wish it was me, yeah?  
Do you wish it was me?
