Jason Aldean

First Time Again

The mention of your name That's all it takes My heart re-breaks My whole world shakes And it's flashback driveway pouring rain Nothing I could do nothing I could say To slow you down And right now

It's like the first time watching you walk away Begging baby please just stay Feeling every second of the clock tick by On an endless night The first time seeing you with someone new Dying inside trying to play it cool It don't matter how long it's been I'm always missing you For the first time again

It could start with an old song Feeling you come on It could be at a party Seeing everybody And I'm right back wishing you were right back here Wishing that missing you would just disappear But it don't and it won't And baby here I go

It's like the first time watching you walk away Begging baby please just stay Feeling every second of the clock tick by On an endless night The first time seeing you with someone new Dying inside trying to play it cool It don't matter how long it's been I'm always missing you For the first time again Oh, for the first time again

It don't let up, it don't get better Hell it just might last forever But it all takes me back It all takes me back

To the first time watching you walk away Begging baby please just stay Feeling every second of the clock tick by On an endless night The first time seeing you with someone new Dying inside trying to play it cool It don't matter how long it's been I'm always missing you For the first time again I'm always missing you For the first time again For the first time again Tor the first time again Tištěno z www.txp.cz
