

# I Took It with Me

Jason Aldean

When I passed that city limit sign  
I knew that I was finally on my own  
So I put my foot down on the gas  
To see how fast those wheels could get me going  
Everything about that place made me who I am  
But they say once you leave you can't go back again

So I took it with me, that cloud of red dust rolling up  
That Georgia blue sky, setting sun, straight up highway forty-one  
I took it with me, that wild street, that fighting size  
That on the run on a Friday night  
That standing tall small town crowd  
I took it with me

They say this world can change you fast  
Kick you right on back where you belong  
I rolled my sleeves up every day  
That's just what you do where I come from

Everything I ever knew I bottled up inside  
What I'd leave your side at back home  
It ain't hard to find

So I took it with me, that cloud of red dust rolling up  
That Georgia blue sky, setting sun, straight up highway forty-one  
I took it with me, that wild street, that fighting size  
That on the run on a Friday night  
That standing tall small town crowd  
I took it with me

I'd be a thousand miles away  
But it's still crystal clear  
I see that picture in my mind  
I keep with right here

So I took it with me, that cloud of red dust rolling up  
That Georgia blue sky, setting sun, straight up highway forty-one  
I took it with me, that wild street, that fighting size  
That on the run on a Friday night  
That standing tall small town crowd  
I took it with me
