

I Use What I Got

Jason Aldean

Nobody ever thought I'd make it in this town
They all said I should leave my truck
Pack and turn right back around
They said I didn't have what it takes
I needed money and a pretty face
But I just look at them and say

I use what I got, take what I get
Until I ain't got nothin' left
Then I give it some more
Keep on climbing up that mountain

Keep truckin' along, work up a sweat
Past every no after no after no till I get a yes
I don't worry about what I've done
I use what I got, yeah

I still got big dreams and a strong heart
I got a lot of real good friends
Who helped me get this far
I still got a lot of miles to go
It's a winding, uphill road
And I'll get there the only way I know

I use what I got, take what I get
Until I ain't got nothin' left
Then I give it some more
Keep on climbing up that mountain

Keep truckin' along, work up a sweat
Past every no after no after no till I get a yes
I don't worry about what I've done
I use what I got, yeah

Keep on rollin' along, doin' my best
Past every no after no after no till I get a yes
I don't worry about what I'm not
No, no, I don't worry about what I'm not
I use what I got, yeah
