

# She Loved Me

Jason Aldean

It was the summer of '89  
I fell in love and i learned to drive  
Me and Becky didn't waste no time  
Went zero to 65 one night  
Being young was getting old  
We were headed down a dead end road

But we didn't care, we were on a roll  
Hangin' on for the ride  
Those lines that we were crossing  
Carelessly tossin' caution to the wind  
We were wearin' thin

We were livin' for the minute lovin' every second of it  
Fearless wild and free  
Nothin' could stop us  
But one day time caught up with us  
And woke us up in the middle of our dream  
But not before she loved me

To think we thought that it would last  
Now lookin' back i have to laugh  
What a mess we made of that  
Now I'm not sure that i would want it back  
We learned a little bit about love  
What it wasn't and what it was  
It was fast and it was fun  
The beginning of the end of us  
But one day that road just ran out  
Yeah, i still travel down it now and then, and once again

We were livin' for the minute lovin' every second of it  
Fearless wild and free  
Nothin' could stop us  
But one day time caught up with us  
And woke us up in the middle of our dream  
But not before she loved me

She loved me  
She loved me
