

## Two Night Town

Jason Aldean

I just spent three nights in a two night town  
Suns comin' up and I'm just goin' down  
Am I ever gonna turn my life around  
I just spent three nights in a two night town

It was women, it was sinnin', it was alcohol  
It was everything the Bible says will make a man fall  
And I didn't wanna little, Lord I wanted it all  
It was women, it was sinnin', it was alcohol

When am I, ever gonna learn to walk away  
When the chips are down and the cards ain't fallin' my way  
Why do I always gotta stay too long till it's too late

I just spent three nights in a two night town  
With a bunch of lost souls all tryna get found  
Girl I've been a little crazy since you walked out  
So I just spent three nights in a two night town

When am I, ever gonna learn to walk away  
When the chips are down and the cards ain't fallin' my way  
Why do I always gotta stay too long till it's too late

I just spent three nights in a two night town  
Suns comin' up and I'm just goin' down  
But baby this pain is still hangin' around  
I think I'll spend four nights in a two night town
