

# Whiskey'd Up

Jason Aldean

I can twist the top off a 12-pack of longnecks  
Get my redneck on baby all night long with the boys  
And never even think about you  
I can be sittin' with someone new at a table for two  
Buzzin' on a bottle of wine and your memory  
Ain't messin' up my good time

But when I get whiskey'd up, that wantin' you again  
Starts kickin' back in and I'm late night calling you up  
My heart starts hurtin' when that bourbon starts burning  
And I can't help but touch that stuff  
It's just like you all warm and smooth  
Even though I know that you don't miss me  
It's like you're here with me  
When I get whiskey'd up

Every sip I take I can taste your kiss  
I feel the fire of your fingertips on my skin  
I guess that's why every now and then

I get whiskey'd up, that wantin' you again  
Starts kickin' back in and I'm late night calling you up  
My heart starts hurtin' when that bourbon starts burning  
And I can't help but touch that stuff  
It's just like you all warm and smooth  
Even though I know that you don't miss me  
It's like you're here with me  
When I get whiskey'd up

It's a straight shot back to me and you  
Yeah when I pour one up  
I know just what I'm getting into

When I get whiskey'd up, that wantin' you again  
Starts kickin' back in and I'm late night calling you up  
My heart starts hurtin' when that bourbon starts burning  
And I can't help but touch that stuff  
It's just like you all warm and smooth  
Even though I know that you don't miss me  
It's like you're here with me  
When I get whiskey'd up  
When I'm all whiskey'd up
