

Heartache Like Mine

Jason Blaine

Have you ever had a heartache
One that leaves you in the cold
The kind breaks you, really takes you
All the way down to a higher low

Have you ever been up in the middle of the night
Crying on your pillow and praying for the daylight
Hearing every word like a sad song saying goodbye
Have you ever been the one with the what have I done
And nothing's ever gonna feel right
Start thinking 'bout drinking
Just to keep from going out of your mind
Have you ever had a heartache like mine

Have you ever had a heartache
Turn your life right upside-down
Did you feel the dread that's on you
The stuff that holds you come unwound

(Repeat Chorus)

Have you ever been up in the middle of the night
Crying on your pillow and praying for the daylight
Hearing every word like a sad song saying goodbye
Have you ever been the one with the what have I done
And nothing's ever gonna feel right
Start thinking 'bout drinking
Just to keep from going out of your mind
Have you ever had a heartache
I mean really had a bad break
Have you ever had a heartache like mine
